

SPP 1172

Investigations on the ephrinA/EphA signalling system at the neuroglial interface - focus on synaptic morphology, plasticity and glutamate signalling

DFG Deutsche
Forschungsgemeinschaft
German Research Foundation

Speaker:

Professor Dr. Rüdiger Klein
Max-Planck-Institut für Neurobiologie
Abteilung Moleküle - Signale – Entwicklung

Funding period:

from 2004 to 2012

Project description:

No abstract available
